## NEW

# SmartLog Pro<sup>®</sup> 2

The SmartLog Pro<sup>®</sup> 2 verifies the functionality of an operator's wrist strap and footwear, logs the test results, and controls access to an ESD Protected Area. Each log entry includes operator identification, test results, resistance measurements, time, temperature, and humidity.

## SLP SmartLog Pro<sup>®</sup> Manager

SmartLog Pro<sup>®</sup> Manager automates the collection of ESD personnel grounding tests and maintains records for a Compliance Verification Plan as required by ANSI/ESD S20.20. It includes functions for tracking employee leave time, shift and department assignments, and ESD training accreditation. SmartLog Pro<sup>®</sup> Manager generates automated reports that may be e-mailed to track short term and long term corrective actions.

## NEW FEATURES

**7" Resistive Touchscreen**  
Accepts input from gloved operators and probes

**Wi-Fi Connectivity**  
Spares installation sites from running Ethernet cable

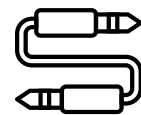

**Customizable Proximity Badge Reader**  
Reads most global proximity and contactless credentials

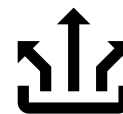

**3-Prong Power Adapter**  
Supplies ground without the need for additional wiring

**Wiegand Interface**  
Pairs with facial recognition terminals and other access control devices

**Replaceable Dual-Wire Jack**  
Minimizes service downtime

**VGA Video Output**  
Mirrors the display onto an external monitor
